

Homework Policy

Homework at Learning Community Charter School may be assigned daily in every academic subject area. Homework is an integral tool for reviewing and reinforcing concepts learned during the school day. There will be times when homework may be assigned over the weekend to reinforce such concepts, especially in grades 4-8.

It is expected that homework is done by the student and not by the parent. Teachers at LCCS are cognizant of the time it should take for your child to complete a daily homework assignment. Please contact your child's teacher should you see your child taking an excessive amount of time to complete an assignment.

Should a homework assignment not be completed by the date that it is due, or if a student receives an out of school or in-school suspension, the assignment is considered late, and the student will only receive partial credit for the assignment.

Students entering into grades 4-5 will receive homework packets in language arts and math over the summer to complete and turn in to their 4th or 5th grade teacher during the first week of school.

Students entering grades 6-8 will receive homework packets in language arts, math, science, and social studies to be handed into their 6th, 7th, or 8th grade teacher during the first week of school. These homework packets will count as a quiz grade for the first marking period of the coming school year.
